VINCENNES UNIVERSITY ADMISSIONS REQUIREMENTS

BEGINNING ENTRY TERM FALL 2012

Admission for Degree-Seeking Students

Admission as a student to Vincennes University leading to a degree or technical certificate requires either (1) a high school diploma earned by passage of a Graduate Qualifying Exam, or (2) a General Educational Development (GED) diploma. Applicants with a high school diploma that was not earned through a Graduate Qualifying Exam may instead demonstrate their college readiness by presenting 24 hours of postsecondary credit from a regionally accredited institution. Alternatively, these applicants may demonstrate their college readiness by obtaining a minimum score as designated by the U.S. Department of Education on one of the three subtests of the Computerized Placement Tests (CPTs) provided free of charge by VU. Finally, these applicants may instead submit achievement of the minimum scores on any of the other tests approved by the U.S. Dept. of Education to document an applicant's college readiness (view a list of approved tests at www.vinu.edu/admissions). Applicants who do not meet any of the above criteria may appeal to the Director of Admissions to have their application reviewed. Vincennes University reserves the right to deny admission.

Vincennes University also welcomes students graduating from non-traditional high schools such as accredited Internet high schools, schools which are not yet accredited, or from home schooling programs. Students completing these programs should supply the Admissions office with additional information including an academic portfolio and a detailed transcript (each course briefly described) annotated with a graduation date.

Vincennes University supports the State of Indiana's Core 40 high school curriculum. It is strongly recommended that students meet the Core 40 requirements, but completion of the Core 40 curriculum is not required for admission.

Admission into selected programs, whether associate or baccalaureate degree, is necessarily limited by facilities and other resources. In the same way admission to the University may, from time-to-time, be capped or deferred when our capacity to serve students has been reached. All applicants must first be accepted into the University and take the Computerized Placement Tests (CPTs) before they will be considered for acceptance to a health science program. Acceptance into the University does not guarantee acceptance into a health science major. Specific admission requirements can be found under the descriptions of each major, www.vinu.edu/catalog.

For a complete list of admission information visit www.vinu.edu/admissions or call Admissions at 1-800-742-9198.
