

Vincennes University

Construction Graduate Bulletin

2004-2005

As designer, draftsman, and Builder, a master carpenter has the toughest job of any tradesman on a site. Being the one not only to lead in forming up a structure from two dimensions of lines to three dimensions of substance. But also to provide for, adapt to, or compensate for all the other trades at work from start to finish.

PLACEMENT DAY

2005

WHAT IT IS:

An opportunity for employers to meet graduates seeking employment, as well as students seeking summer employment.

WHO MAY PARTICIPATE:

Any employer seeking employees skilled in many aspects of construction—including residential hands-on building, building materials marketing, architectural drafting, 2D & 3D architectural presentations, & surveying.

WHEN & WHERE:

Thursday, March 17, 2005 from 10:00am to 2:00pm in Construction Technology Building on the VU campus (maps available upon request).

HOW TO RESERVE YOUR SPOT:

Any employer wishing to participate may return the form below. For additional information, contact K. Brian Lindsey in the Construction Technology Department at (812) 888-6257 or Jason Fithian in the Architectural Studies Department at (812) 888-4183. Individuals interested in employing Surveying students should contact Bill Clark at (812) 888-5865.

DETACH & MAIL TO:

Stephen Simonds
Placement Director
Vincennes University
1002 North First Street
Vincennes, IN 47591
Phone number (812) 888-4280 or Fax to (812) 888-2201

YES! I AM INTERESTED IN ATTENDING PLACEMENT DAY 2005!

NOTE: Lecture/laboratory classes are designed to be taken concurrently. They cannot be taken separately or dropped separately. Failure in either the lecture or lab will require that the entire course be taken again. Students wishing to withdraw from either the lecture or lab must withdraw from both.

¹ See course description for details regarding this optional internship.

² Strongly recommended electives: CNST 120 Construction Safety, CNST 155 Electrical Wiring, CNST 210 Mechanical Systems.

³ A.S. degree students must complete SPCH 143.

BUILDING MAINTENANCE 8230
A One-Year Program Leading to a Certificate of Program Completion

This program is designed to prepare students for apartment and condominium maintenance. Students are trained in carpentry, concrete, masonry, blue print reading, electrical wiring, plumbing, HVAC and small engines.

NOTE: All students must satisfy the University's minimal requirements through either placement tests or enrollment in READ 011.

Course Descriptions

CNST 100 Construction Seminar

1 hours (Sem I)

A course designed to expose students to recent trends in the residential construction industry. Information is presented concerning materials, occupations and professional organizations within the industry. Guest speakers provide such information when available. 1 hour lecture.

CNST 120 Construction Safety

2 hours (Sem I, II)

A course that focuses on safety practices to be followed during residential construction. Emphasis is placed on the Occupational Safety and Health Administrations Safety and Health Standards for the construction industry. 2 lecture hours.

CNST 105 Framing

2 hours (Sem I, II)

Corequisite: CNSL 105. A course devoted to rough framing. It includes building codes, floor framing, wall framing, roof framing, stair framing and general use of the steel square. Information on types and methods of construction will be presented in the classroom. The laboratory section will provide opportunities to practice framing in mock-up situations. Field trips will be scheduled if houses in rough framing construction are available. 2 lecture hours

CNSL 105 Framing Laboratory

2 hours (Sem I, II)

Corequisite: CNST 105. This course involves hands-on activities that are directly related to CNST 105. 4 laboratory hours.

CNST 155 Electrical Wiring

2 hours (Sem I, II)

Corequisite: CNSL 155. Information is given regarding installing and connecting component parts of residential wiring in a manner which is workable and acceptable according to the national electrical code. 2 lecture hours.

CNSL 155 Electrical Wiring Laboratory

1 hour (Sem I, II)

Corequisite: CNST 155. This course involves hands-on activities that are directly related to CNST 155. 2 laboratory hours.

CNST 160 Finish Carpentry

2 hours (Sem I, II)

Corequisite: CNSL 160. Students are introduced to products and instructed in their applications in the residential building industry. Instruction includes wall covering, floor covering, ceilings, paint, hardware, millwork, specialty products, doors and windows. 2 lecture hours.

CNSL 160 Finish Carpentry Laboratory

2 hours (Sem I, II)

Corequisite: CNST 160. This course involves hands-on activities that are directly related to CNST 160. 4 laboratory hours.

CNST 180 Concrete and Masonry

2 hours (Sem I, II)

Corequisite: CNSL 180. Students plan foundation, footings, walks, and driveways. They are instructed on the types of bonds and materials used to construct walls. Composition of the materials is also covered. 2 lecture hours.

CNSL 180 Concrete and Masonry Laboratory

2 hours (Sem I, II)

Corequisite: CNST 180. This course involves hands-on activities that are directly related to CNST 180. 4 laboratory hours.

CNST 205 Residential House Construction I

8 hours (Sem I)

Prerequisite: A grade of C or better in CNST 105, 120, 155, 160 and 180. The first of two courses in house construction. Details of residential house construction will be covered including foundation installation, floor and wall framing, roofing insulation, wiring, door and window installation. Students will be given necessary on-the-job experiences to understand the problems of the use of materials and equipment. Houses will be constructed as a result of these courses. 22 laboratory hours.

CNST 210 Mechanical Systems

2 hours (Sem I, II)

Information is given regarding installation of residential fresh water distribution, drainage, waste and ventilation in a manner that is workable and acceptable to the plumbing codes. Insulation, moisture control, ventilation and HVAC topics are covered in relationship to required energy standards. 2 lecture hours.

CNST 250 Residential House Construction II

8 hours (Sem II)

Prerequisite: A grade of C or better in CNST 205. A continuation of CNST 205, including interior and exterior finish. 22 laboratory hours.

CNST 255 Construction Material Takeoff**3 hours (Sem I)**

Students learn to complete material takeoff for residential buildings. The entire course involves the practice of estimating materials; therefore, a prior knowledge of the kinds and qualities of materials used in residential construction is essential. 3 lecture hours.

CNST 260 Problems in Remodeling**3 hours (Sem I, II)**

Students are instructed in the problems commonly found when adding an addition, updating a structure, and restructuring a building. The problems involved in planning kitchens, baths, and other rooms are included. 3 lecture hours.

CNST 261 The Indiana Residential Code for One-and Two-Family Dwellings**3 hours (Sem I, II)**

A course devoted to the understanding and interpretation of the Indiana Residential Code for one- and two-family dwellings. Instruction will be given in the following areas, but not limited to, administrative requirements, definitions, building planning, foundations, floors, wall construction, wall coverings, roof and ceiling construction, and roof assemblies. 3 lecture hours.

CNST 265 Cabinetmaking and Millwork**2 hours (Sem I, II)**

Corequisite: CNSL 265. Instruction is given on those machines most likely found in a mill workshop and emphasis is placed on development of skills to the highest degree in tool operation. Information is given on the parts that constitute various types of casework. Laboratory time is available to develop skills in tool set-up and operation as well as construction and assembly of cabinet parts. 2 lecture hours.

CNSL 265 Cabinetmaking and Millwork Laboratory**2 hours (Sem I, II)**

Corequisite: CNST 265. This course involves hands-on activities that are directly related to CNST 265. 4 laboratory hours.

CNST 270 Construction Labor Rating and PricingR/W/S**2 hours (Sem II)**

Prerequisites: Successful completion of READ 011, or recentered SAT Verbal score of (R)420 or greater, or appropriate placement test scores, and CNST 255. Corequisite: CNSL 270. Material takeoff and labor rating data completed in CNST 255 will be used to determine the cost of a building. Making material price comparisons and a complete estimate of a house are required projects. 2 lecture hours.

CNSL 270 Construction Labor Rating and Pricing LaboratoryR/W/S**1 hour (Sem II)**

Corequisite: CNST 270. This course involves hands-on activities that are directly related to CNST 270. 2 laboratory hours.

CNST 290 Internship in Materials Merchandising**2 hours (Sem I, II)**

Interested and qualified students may serve an internship with a building materials center. Internship is under the supervision of the coordinator of the Building Materials Marketing Option. A minimum of 160 hours of on-the-job training is required. Students' time should include 80 hours of yard duties (loading, storage, clean up, etc.) and 80 hours of in-store duties (stocking, pricing, merchandise display, signs, etc.). Minimum 160 laboratory hours.

CNST 291 Internship in Materials Merchandising**3 hours (Sem I, II)**

Same as CNST 290 with an addition 80 hours devoted to consumer sales. A predetermined minimum sales volume will be established by the building supply dealer and the coordinator. Minimum 240 laboratory hours.

CNST 292 Internship in Materials Merchandising**4 hours (Sem I, II)**

Will include all the elements of CNST 290 and 291 with an additional 80 hours spent on inventory control, accounts receivable, accounts payable, payroll, etc. Minimum of 320 laboratory hours.

Brandon L Betz

2364 South Celestine Road Schnellville, In. 47580

Phone #: 812-389-2052 **e-mail:** brandonbetz@hotmail.com

Born: December 29, 1984

Work Experience:

5/1/01-9/1/04 Betz Brothers Building Supply Celestine, In.

Carpenter

5/1/00-8/1/00 Party Ice Jasper, In.

Ice Deliverer

5/1/99-8/1/99 Betz Insulating Celestine, In.

Laborer

Academic Training:

2005 graduate of Vincennes University Vincennes, IN 47591 with a/an A.A.S Degree in Construction Technology

2003 graduate of Forest Park High School 1440 Michigan Street Ferdnand, In. 47532

Memberships, Scholarships and Honors:

Eagle Scout-Boy Scouts of America

Special Interests:

Hunting, building model cars, watching football, and NASCAR races.
