What is the best way to contact you?

Do you have any pets? If so, what kind?

Do you have any preference for type of student you would like to host (gender, nationality, language)?*

Can you accommodate dietary restrictions (vegetarian, no pork, etc.) if a student has them?

Briefly list the place of work or occupations that adults in your family are involved in (e.g. business, carpentry, home-making, etc.):

Is there anything else that you would like to mention that might be helpful in matching you with a student?

Thank you for your participation!

*We will try our best to accommodate requests for matching students according to preferences, however this is not always feasible.
