

Business & Industry Training

VINCENNES UNIVERSITY

Machining Mondays

Pick and Choose from a Menu of Machining Upskilling Options

PROGRAM DETAILS

Mondays | 8:30 a.m. - 4:30 p.m. (ET)

Vincennes University | Gene Haas Training and Education Center

316 N. Mt. Zion Rd. Lebanon, IN 46052

COURSE MODULES

Served Fresh Every Monday

Print Reading - 2 Day Training

Learn how to read shop prints, GD&T, and travelers used in CNC work.

8/10 & 8/17 | **\$190**

Metrology - 4 Day Training

Build the measuring skills needed to inspect parts accurately.

8/24, 8/31, 9/21 & 9/28 | **\$580**

Measuring Profiles & CMM - 1 Day Training

Learn advanced measuring techniques and how to interpret CMM data.

10/05 | **\$145**

Fundamentals of CNC - 2 Days Training

Get introduced to G-code, tool offsets, work coordinates, speeds, and feeds.

10/19 & 11/9 | **\$190**

Machine Operation - 3 Days Training

Learn the basic steps for safely setting tools, loading programs, and operating CNC machines.

11/16, 11/23 & 11/30 | **\$435**

Machine Setup - 3 Days Training

Practice setting up fixtures, vises, probes, tool setters, and tooling before production.

12/7, 12/14 & 1/11 | **\$435**

Running Parts - 1 Day Training

Learn how to load, unload, clean, and verify parts during a machine run.

1/25 | **\$145**

Correcting for Errors - 2 Days Training

Learn how to adjust offsets and correct part issues when measurements are off.

2/1 & 2/8 | **\$290**

Lathe Operations - 2 Days Training

Learn the basics of setting up and operating a CNC lathe.

2/15 & 2/22 | **\$290**

Grinders & Gears - 1 Day Training

Get introduced to surface grinding, gear terminology, and deburring techniques.

3/1 | **\$145**

All modules sold separately. Mix and match to build your training path.
