Business & Industry

VINCENNES UNIVERSITY

Technology – Construction Management Bachelor of Science (B.S.)

A 120 Credit Hour Program Leading to the Bachelor of Science Degree

This program is designed for students who have completed an associate degree in a technical field and are ready to advance their careers. The Technology – Construction Management B.S. builds on prior education and industry training while developing skills in project management, leadership, and business operations. Students gain practical, real-world knowledge they can apply immediately on the job, preparing them to lead and manage projects across a variety of industries.

Guidelines for Technology Degree Completion

- I. Must be accepted as a Vincennes University student and into the Technology B.S. program.
- II. Requires completion of an approved Associate degree with 60 hours applied towards the Bachelor degree.
- III. Completion of all required major courses, university core curriculum, and capstone requirements (totaling 120 credit hours).
- IV. Coursework is delivered in flexible formats, including online and 8-week courses, designed for working professionals and adult learners.
