

Learning Unlimited Locations

The Learning Unlimited program partners with local public libraries to utilize the library as a mini-campus. With public-access computers, reference and resource books, and the Learning Unlimited Coach, our public library partners are able to provide everything a Distance Education student should need to navigate their college degree.

Below is a list of our library partners and our Learning Unlimited Coaches. Each Coach has dedicated office hours where they are able to help students in their classes and proctor class tests and the Accuplacer Placement Exam.
