Section I. Guiding Questions

- Reflect on your testing data. Where do see areas for improvement? Where are you doing very well?
- Are there strategies currently employed by faculty in stronger performing areas that may be of help to those in poorer performing areas?
- Are there any licensure areas where candidates consistently perform well? What factors do you attribute this success to?
- Are there any licensure areas where average scores are lower than state averages, or where candidates are retaking exams multiple times? What steps can your program take to address these areas (i.e. offer further candidate support, re-aligning coursework, etc.)?

Section II. Candidate Selection

Traditional	2.65	2.75
Alternative		na
Average Cumulative GPA of Admitted Teacher Candidates*		
Туре	STATE	EPP
Traditional	3.31	3.24
Alternative	3.39	na

Section II. Guiding Questions

- Do you think overall minimum GPA requirements are a good indicator of candidate success later in the program? Why or why not?
- Is a very high overall average GPA a possible sign of "grade inflation" or simply the result of stronger candidates being selected and retained? Both? Unsure?

Section III. Attrition-Retention-Completion

Attrition-Retention-Completion Rates By Academic Year	-	
	STATE	EPP
Total Number of Education Candidates**	9458	74
Total Number Completion/Graduation	3048	20
Percentage Completion/Graduation	32%	27%
Total Number Retained in Education	5786	53
Percentage Retained in Education	61%	72%
Total Number Program Attrition	216	0
Percentage Program Attrition	2.30%	0%
Total Number Institutional Attrition	408	1
Percentage Institutional Attrition	4.30%	1%
Percentage Total***	100%	100%

Section III. Guiding Questions

- Are you identifying the major "push and pull factors" that are influencing candidate retention and attrition? If so, what the top three (3) reasons why candidates are leaving your EPP, though not necessarily the institution?
- Have you identified content areas with the most successful completion rates? If so, what do you think is the reason for their success and how might this help programs with lower retention rates?
- After reviewing the institutional and program attrition rates, are you able to identify whether any current efforts to retain candidates have been successful, or whether there is any need to further develop actions related retention?

Section IV. Impact of EPP (Principal Survey, Teacher Survey, Effectiveness Ratings)
