How to Find Articles

You can find articles by using OneVU or you can access one of our many databases geared towards general or specific subjects. A great way to start your research is to go to “Databases A-Z” and choose a general database like “Academic Search Premier”. You can also choose a specialty database, which are sorted by college. You’ll find databases for your program under “Social Science, Performing Arts and Communication” located on our Find Articles page. Below is a search example using Academic Search Premier.
