How to Find Articles

You can find articles by using OneVU or you can access one of our many databases geared towards general or specific subjects. A great way to start your research is to go to “Databases A-Z” and choose a general database like “Academic Search Premier”. You can also choose a specialty database, which are sorted by college. You’ll find databases for your program under “Humanities Databases” located on our Find Articles page. Below is a search example using Academic Search Premier.

Exercise I.

**Advanced Searching Using OneVU**

On the library home page, go to the OneVU search box at the top of the page.

Click the *Advanced Search* link located in the lower left-hand corner.

Using the different search options, perform a search that finds peer-reviewed articles that are:

- About “Cubism”
- Were written after 2010
- Are in English

How many search results do you get?

_________________________________________________________________________

Repeat the search, but this time search for books. How many results do you get?

Exercise II.

**Research Databases**

Research databases are electronic resources used for finding scholarly journal articles, magazine articles, newspaper articles, and other information that has been published in periodicals. You can skip the OneVU Discovery Tool if you desire to search a specific, familiar resource.

Access the VU Libraries website.

Click the *Databases A-Z* link.

Select the *Academic Search Premier* database from the list.

Search for “Paleolithic Art” by typing your topic in the first search textbox.

Click the *Search* button.

How many results did you retrieve? ____________________________________________

In the sidebar to the left you will see the *limiters* that are available (HINT: All databases offer limiters to help you manage your search results). Under **Limit To**, select Scholarly (Peer Reviewed) Journals, and under **Source Types**, limit your results to Academic Journals.

Use the *Publication Date* slider bar to limit your results to 2010-2017.

How many results? ____________________________________________

Limit your results again by selecting *Full Text* under **Limit To**. Select one *full text* article from your search results. Provide the following information about that article:
Go back to the VU Libraries website.
Click the Databases A-Z link.
Select the ARTstor database from the list.
Click on Enter ARTstor Digital Library

Click on Advanced Search and search for Hellenistic using the Style or Period option in the dropdown.
On the results page, under Geography, choose Europe and under Classification, choose Sculpture and Installations. How many results are there?

Click on one of the results. Look under Item Details. What is the title of this work?

Exercise III.
Reliable Sources
Using library resources gives you the benefit of selecting reliable sources for your assignments, unlike using Google to search the Internet. What are some reasons you believe your article is reliable?
(Reasons might include: What is the article’s purpose—to present scholarly research, inform, or persuade? Are other credible sources cited? Are the author’s credentials mentioned? Is the journal peer-reviewed?)
