

Greetings! I am Chuck Johnson President of Vincennes University. A year into this global pandemic and here we are still continuing to live in a state of uncertainty charting our way through these unprecedented times. One thing I know though, thanks to the support of all of you, VU has remained strong delivering the same high-quality education you know and love. Because of your care for our VU community, our students have been able to continue their educational journeys and achieve their dreams. Even as we made the changes that were needed in order for us to continue fulfilling our mission while keeping everyone as safe as possible. Your passion propelled our purpose forward by providing emergency student funds and shoring up financial aid packages with much needed and deserved scholarships. On behalf of myself, and all Vincennes University students, faculty, and staff, thank you for always ensuring VU remains a strong institution. I am excited to announce we are hosting our first university wide day of giving. Blazers Give Day will take place Thursday, April 8. It is one day that will make a difference every day. We invite you to be the spark and we look forward to your participation in celebrating and supporting the Trailblazer Spirit. Your passion fuels our purpose. Be well!
